CONSERVATORY AWNINGS: SOTTEZZA

ATMOSPHERE UNDER GLASS

Sottezza is an awning under glass for conservatories and glass roofs which creates a particularly homely atmosphere. It is installed below the glazing and ensures that light and heat can be controlled in the room – without losing the transparency of the roof. It is also well-protected against wind, weather and dirt. Available as Stretch or OptiStretch version: Stretch tensions the fabric in a classical manner, OptiStretch also guides it sideways – for a fully closed construction without a side opening.
